

## **PAULA HOOPER**

Paula Hooper is a Research Associate at the Centre for the Built Environment and Health. She has a Masters in Physical Activity and Public Health (Distinction), a Bachelor of Science in Sport and Exercise Sciences and graduated with her PhD from the University of Western Australia in September 2014. Dr Hooper's multidisciplinary research work has studied the impact of the built environment on health and wellbeing and has had a strong focus on policy-relevance and research-translation, for which she has won numerous planning industry-based awards. Paula often works with 'big' spatial and population datasets and was part of the team that developed the online and interactive POS Tool for Perth ([www.postool.com](http://www.postool.com)).
