

**Zoe Wilks**

Transport Engineer, Arup

Zoe is a transport engineer with experience in strategic and masterplanning projects which require working to tight deadlines with large multidisciplinary teams. As well as local experience, Zoe has two years international experience with Arup in the UK. Zoe is skilled in the manipulation, utilisation and visualisation of complex transport and traffic data. She is able to efficiently interpret and manipulate large complex datasets to ensure strategic transport projects are delivered in a forward thinking and holistic manner.

Zoe holds a Bachelor of Engineering with Honours and a Bachelor of Commerce from the University of Western Australia. Zoe was awarded the Australian Institute of Traffic, Planning and Management (AITPM) Young Professional of the Year in 2013 as well as the Chartered Institute of Highways and Transportation (CIHT) West Midlands Highly Commended Young Professional in 2015.
